

OLC-CRID01

RFID READER

MAIN FEATURES

- Frequency: 125Khz or 13.56Mhz
- wiegand26/34 bit output

Technical Specifications

Output Interface	Standard wiegand26/34 bit
Operating Frequency	125KHz or 13.56MHz
Reader Card	EM or Mifare Card
Transmitting Distance	WG≤100M
Proximity Range	3~15cm
Power Supply	DC9~12V
Static Power Supply	50~70mA
Temperature	-25° C to 75° C
Relative Humidity	10%-90%
Recognition Speed	<=5s
LED	Built-in LED (Double Color LED)
Buzzer	Built-in Loud Speaker
Material	PVC Case Material (Black Resin for Water-Proof Function)
Dimension	100*46*20 (mm)
Package	100pcs per carton. Carton Size: 43.5*56*23(cm)
Audiovisual indication	When a registered card is presented to the reader, the red LED flashes green and the beep sounds
