

# FAST LISS

TERMINATED HAIR  
REHABILITATION  
BRASILIAN KERATIN

FORMALDEHYDE 0%

GLUTARAL 0%

GLYOXYLIC ACID 0%

## WHAT IS?

Fast Liss is a professional hair fiber realignment product that helps to decrease the volume, discipline the wires and provide a smoother texture to curly, wavy or rebellious hair. The treatment promotes a gradual smoothing, but in some cases it can smooth completely in the first application. Because it is a product that does not have any ANVISA (Brazilian National Health Surveillance Agency), banned assets, such as formalin, glyoxylic acid, carbocysteine and others, it is compatible with any chemistry and can be used before or after any process.

## WHAT ARE YOU DOING?

It penetrates the strands by breaking down some chemical bonds, while the essential oils promote capillary nutrition, which improves the dry appearance of curly or frizz hair. After the pause time, it is rinsed to remove 100% of the hair product. Next, we recommend making a very smooth brush to realign the sulfur bridges in a straight position and pass the wick to the wick to seal and fix this new smoother form on the hair.

## CHARACTERISTICS

Thermoactivated physical-chemical process, which realigns the curls and waves gradually with the use.

- Suitable for all hair types.
- Nourishes hair by improving hair condition.
- Compatible with any chemistry.
- Do not yellow the blondes, nor fade coloration.
- 30 minute break + brush + surfboard.
- Nano Bio-technology, Hydrogen Bridges, Saline and Van der Waals to thermoactivate and realign the hair fiber to a smoother shape.

## HOW TO USE

Wash hair with a more appropriate NG shampoo from France. After, spray on all hair, clean and moist, the **Thermo Repair Spray**. Apply the product wick to wick at a distance of 1cm from the scalp. Apply the product wick to wick at a distance of 1cm from the scalp. Cover the head with a plastic cap and heat for 5 minutes with a heat source (dryer, diffuser, thermal cap, accelerator, etc.). After, let the product act for another 30-40 minutes. Thoroughly rinse the product without leaving residues. Remove the moisture with a towel and reapply the **Thermo Repair Spray** all over the hair. Make a smooth brush on damp hair without pre-drying. After, plank the hair 10-15 times working on fine wicks. Finish with the application of **Biossentiel Oil** or **Illuminate Serum**.
